

# KB1030 How to enable Window-Mode with 32-bit color

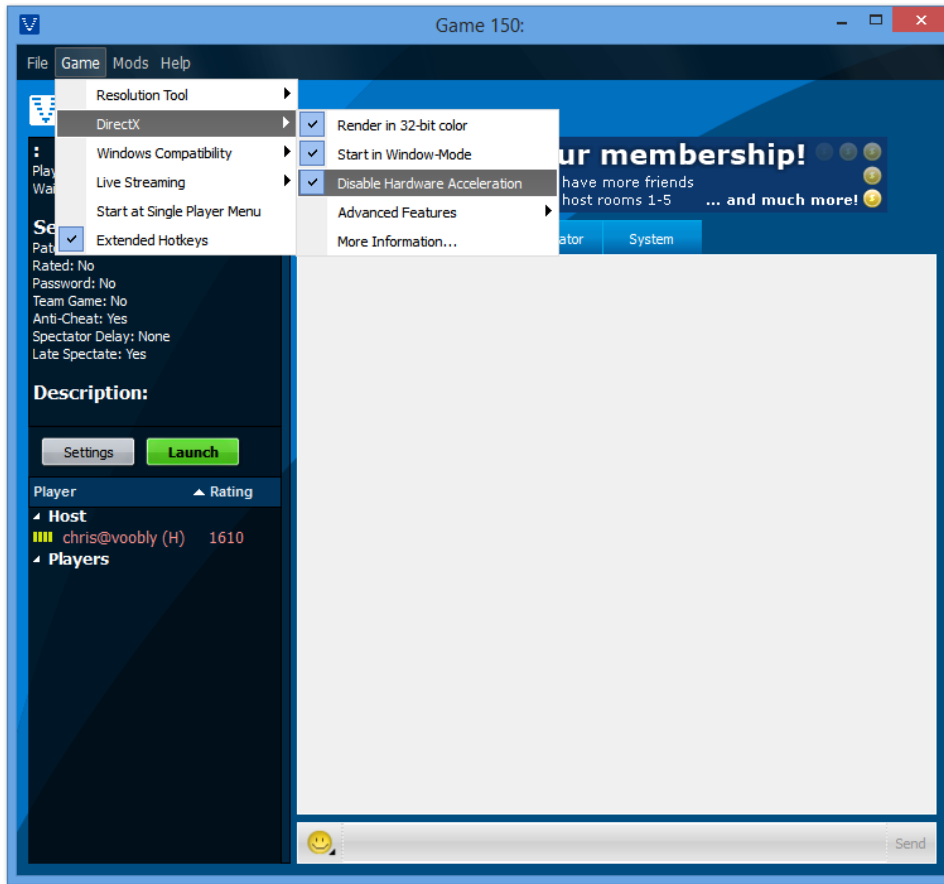

The following settings are enabled by default in newer builds of the Voobly client.

## Step-by-Step guide

1. Join a game lobby and host a game.
2. We recommend enabling the following options for better game experience:
  - a. **Render in 32-bit color** in menu Game > DirectX
  - b. **Start in Windows-Mode** in menu Game > DirectX
  - c. **Enable Window Mode Toggle (ctrl+enter)** in menu Game > DirectX > Advanced Features

3. If you experience any problems, also check **Disable Hardware Acceleration**.
